

REMEDIAL SITE ASSESSMENT DECISION - EPA REGION II

Page 1 of 1

EPA ID: NJD055935902 Site Name: KLEINER METAL SPECIALTIES, INC

State ID:

Alias Site Names:

City: SOUTH PLAINFIELD

Refer to Report Dated: 12/29/2008

County or Parrish: MIDDLESEX

State: NJ

Report Developed By:

Report Type: PRELIMINARY ASSESSMENT 001

☐ 1. Further Remedial Site Assessment Under CERCLA (Superfund) is not required because:

☒ 2. Further Assessment Needed Under CERCLA:
Higher priority for further assessment

Discussion/Rationale:

The Kleiner Metal Specialties (KMS) site manufactured small metal parts used in the aerospace, automotive, and medical industry. Background information indicates that Kleiner Metal stored and used tetrachloroethene (PCE) on site for approximately 18 years. In 1982, PCE was detected in a home on Franklin Street, approximately 600 feet southwest of Kleiner Metal. NJDEP conducted potable well sampling of the area wells from the early 1980's to the early 1990's and discovered other residences had been impacted. Many of the residents were connected to a public water line. A Site Inspection (SI) is recommended for the site to determine if Kleiner Metal is the source.

Site Decision Made by: JAMES DESIR
